HIGHEST RISE IN SEVERAL WEEKS

Alabama Crop Reaches
\$28,000 Bales Says
Federal Forecast

(By Associated Press.)
WASHINGTON, August 31—This
year's cotton production was forecast
at 10,788,000 bales of 500 pounds each
by the department of agriculture.

The forecast was based on the con-
dition of the crop on August 25 which
was 54.1 per cent of normal, indicat-
ing a yield of about 134.8 pounds per
acre. Last month's production fore-
cast was 11,516,000 bales based on
the July 25 condition of 67.2, which
indicated a yield of 143.9 pounds per
acre.

Last year's crop was 9,761,817 bales.
The condition on August 25 in per-
centage of a normal and forecast of
productions in thousands of bales by
principal states follows:

Virginia 98 and 50.
North Carolina 71 and 88.5.
South Carolina 57 and 708.
Georgia 42 and 827.
Florida 30 and 17.
Alabama 52 and 828.
Mississippi 48 and 858.
Louisiana 53 and 361.
Texas 55 and 3,722.
Arkansas 57 and 948.
Tennessee 64 and 415.
Missouri 67 and 193.
Oklahoma 46 and 791.
California 88 and 43.
Arizona 50 and 83.
New Mexico 88 and 59.

NEW YORK, August 31—Active
cotton options jumped about 100
points in the local market today im-
mediately after the government crop
condition report was published.

NEW ORLEANS, August 31—A
bulge of \$5 a bale, the most important
raise in weeks, was recorded in the
local cotton market today in discoun-
ting the government report on the
growing cotton crop, showing a condi-
tion of 54.1 per cent of normal on
August 25 and indicating a yield of
only 10,788,000 bales.

October and December contracts
both soared to 24.7 a pound within
less than five minutes of trade, fol-
lowing the report at ten o'clock, rep-
resenting an advance of 96 to 104 points
as compared with the prices ruling
just before the report was issued.

FULL RECOGNITION GIVEN TO MEXICO

(By Associated Press)
WASHINGTON, August 31—
The United States and Mexico
have agreed to resume full diplo-
matic relations.

Formal announcement of the
agreement was made today by
the state department.

The restoration of relations
carries with it full recognition by
the United States of the govern-
ment of President Obregon. It
results from the negotiations re-
cently concluded in Mexico City
by Charles B. Warren and Charles
Barton Payne.

BATTLING BETWEEN KLANSMEN AND JERSEY MOB IS RENEWD ON STREETS FRIDAY MORNING

Members Of Order Try
To Escape From
Besieged Hall

MEETING RUSHED BY IRATE CROWD

No Further Trouble Is
Expected By Officers
Of The Jersey City

(Associated Press)

PERTH AMBOY, N. J., August 31
—Battling between Ku Klux Klansmen
and mobs was resumed on the streets
of Perth Amboy this morning as mem-
bers of the order tried to escape from
the Odd Fellows hall, after an attack
on a Klan meeting last night when
more than 100 persons are reported
to have been injured. One hundred
men, armed with clubs and stones at-
tacked about 30 Klansmen who dashed
from the hall this morning.

The Klansmen were severely beaten
before they escaped their pursuers.
Several Klansmen were treated at hos-
pitals and later sent to their homes.

The police said that the majority
of the Klansmen who assembled to
hold the meeting were from other
New Jersey cities and towns. A group
of 25 who refused to try driving their
cars homeward, after being sheltered
for several hours at police headquar-
ters, returned to Asbury Park and Bel-
mar by train.

The city settled back to normal con-
ditions during the forenoon and au-
thorities said they anticipated no fur-
ther trouble. A crowd of 5,000 persons
broke up a meeting of the Ku Klux
Klan in Odd Fellows hall last night,
75 policemen and 150 firemen being
unable to drive back the throng that
stormed the building. Firemen drove
trucks into the mass of people, but to
no avail. A hurry call was sent for
state police in Trenton.

Police Chief Tonnison then ordered
his men to throw tear gas bombs and
13 of these the town's entire supply
were exploded. The crowd fell back,
but advanced again, hurling more
stones. It was then that a riot call was
sounded and 150 firemen dashed to the
scene.

Patrolmen fired shots in the air,
threw gas bombs and swung their
night sticks while the firemen turned
streams of water on the fighting throng.

The leaders of the mob were knock-
ed down by patrolmen when they
first started to advance toward the
hall, but after they had been carried
away another attack was started. This
time stones were thrown and all win-
dows in Odd Fellows' hall, as well as
many others in nearby buildings were
broken.

After the firemen had run their ap-
paratus directly at the surging mass
of humanity and had failed to disperse
the crowd they attached hose lines
to every available hydrant and drenched
the rioters with several streams of
water. Daunted for a few seconds
the crowd fell back. Several
of the more sturdy, however, braved
the water and cut the hose lines with
axes and knives while those in the
crowd threw stones at the firemen.

As one man darted from the crowd
some one shouted, "that man has a
gun." A patrolman seized him, shoved
him into an automobile and hurried
him to the police station. Other cars,
loaded with men, followed, but the
prisoner was rushed through the sta-
tion and locked in a stable at the rear.
After searching the station those who
had followed returned to the scene of
the fight.

As some of the klansmen broke
away from the fighting mass, they
shouted, "we're coming back—10,000
strong."

"All right," came the answer, "we'll
be waiting for you—20,000 strong."

Acts To Supply Nation With
Coal In Crisis

Under orders from President Cool-
idge, Clyde B. Atchison, acting chair-
man of the Interstate Commerce Com-
mission, has put the wheels of his
board in motion to furnish priority to
bituminous coal all over the country,
so that America will not be cold in the
event of a strike of the anthracite
miners.

SEVERANCE TAX IS INTRODUCED TODAY

(Associated Press)

MONTGOMERY, Ala., August 31—
A severance tax of three per cent of
the market value of all products tak-
en from the soil, waters and forests
of Alabama is proposed in a bill intro-
duced in the two houses this morning
by Representative Walton, of Cham-
bers, and Senator Duncan, of Lime-
stone.

Every person serving natural re-
sources would be required to make a
monthly report to the state auditor
and to pay the tax, based on the mar-
ket value during the previous month,
according to the bill. The state tax
commission would be given supervi-
sion over the taxes.

"The report of the budget commis-
sion will show that the revenue bill
will not bring in sufficient revenue
to meet the needs of the state. The
severance tax, the fairest that can be
levied, should aid in saving a deficit.
It is a tax upon the removal of the
natural resources which were placed in
Alabama by providence and which,
when removed, can never be of bene-
fit to the public again," said Represen-
tative Walton, in speaking of the
measure.

Senator Duncan is said to have made
a study of the severance tax laws of
other states.

A bill was introduced in the sen-
ate this morning, providing exemp-
tion for cotton mills from taxation
for a period of five years. Sen. R. H.
Powell, of Tuskegee, introduced the
measure.

The measure of Senator Powell is
similar to the Overton bill, defeated
earlier in the week in the senate.

The Powell bill would exempt new
cotton mill companies that invest \$50-
000 or more from September 30, 1923
to September 30, 1928.

Bills were introduced in the sen-
ate regulating hours of employment
for women workers of the state and
giving them proper recreational fa-
cilities, by Senator George H. Duncan,
of Athens.

Another bill, providing for guar-
anties to deposit funds held in state or
national banks, was introduced.

A bill of Senator Foster, would fix
the salaries of members of the board
of revenue of Tuscaloosa county.

ALBANY FUNDS PUT IN COURT'S CUSTODY

Money Turned Over To
Chancery Court When
Billed Filed Today

BANK IS IN DOUBT AS TO OWNERSHIP

Both Treasurers Said
To Claim Funds On
Deposit

Street improvement bond and
school funds which had been held in
the treasury of the city of Albany
today were turned over to the chancery
court, pending outcome of a bill of
interpleader, filed by the Morgan
County National bank to determine
ownership of the funds.

The bank's bill was directed against
Thomas A. Bowles as treasurer of the
City of Decatur and F. A. Bloodworth,
as treasurer of the City of Albany,
against the city of Albany and the
city of Decatur. It sets up that Mr.
Bowles, as treasurer of Decatur,
claims the money in the Morgan
County National bank, depository, and
that Mr. Bloodworth claims Mr.
Bowles was not entitled to it because
the legislation by means of which he
was elected is unconstitutional and in-
valid.

The bank says that it is in doubt
as to the proper disposition of the
money and asks the court to call on the
defendants to interplead among them-
selves and the bank, pending the out-
come of the proceedings, paid into the
each defendant establish his claim.
The total funds include money from
street improvement bonds and school
fund. The general fund is not included.

Under court procedure the defend-
ants are permitted 30 days in which to
file their answers. The circuit judges
will designate a date for the hearing.

Funds of the City of Decatur were
turned over to Mr. Bowles by W. B.
Shackelford.

HUNTSVILLE TOO PLANS EXTENSION

Dr. B. F. Austin, formerly Morgan
County health officer and now hold-
ing a similar position in Madison
County, was here today on private
business, and in connection with coun-
ty health work.

Dr. Austin, stated that plans were
sure to succeed for the "Greater
Huntsville" project, from all informa-
tion available from civic leaders in
Huntsville. The Huntsville chamber
of commerce and the newspapers of the
city are leading in the movement for
a larger city.

"Huntsville is sure to expand" said
Dr. Austin. "I do not know whether
action will be taken to that end at
the present legislature, but plans are
on foot and are working smoothly for
a 'Greater Huntsville.' Some of our
leaders are using the action of the
merger at Decatur to encourage the
proposed expansion at Huntsville. The
leaders do not like the idea of De-
caturs having around 14,000 inhabitants
and Huntsville listed at only 8,048"

concluded Dr. Austin.

Dr. Austin stated that the enter-
tainment on Monte Sano, the moun-
tain near Huntsville, given to the Ki-
wanis Club convention recently held
in Huntsville opened the eyes of the
people there to the possibilities of
Monte Sano, as a summer resort and
that plans are now on foot to open
a hotel there later on.

Dr. Austin expects to return home
this evening.

John Cowell.

7:45 p. m. Regular Evening ser-
vice. Special Sermon on "The
Causes of the Present Economic
Unrest." This is the first of a se-
ries of messages which Dr. Ham will
deliver on this subject and will deal
principally with the problems of
the farmer. All farmers of Morgan
County are especially urged to at-
tend.

The telephone number at the
Tabernacle is Albany 176. It should
be remembered in order to secure
physicians and others in case of
emergency. The ushers will give
prompt attention to all emergency
calls.

The regular services will be held
Saturday and two services will be
held Sunday at 3 p. m. and 7:45 p.
m. respectively. At the afternoon
hour Dr. Ham will speak on "The
Inevitable and Imminent Downfall
of the Present Civilization" in
which he will deal in detail with the
industrial problems of the
present day. On Sunday night he
will speak on "Why I Believe There
Is A God; Why The Bible Is His
Book; Why Jesus Christ Is His
Son."

The largest week night audience
which has yet attended a tabernacle
service was present last night and lis-
tened with rapt attention to the most
earnest and searching message which
the noted evangelist has delivered
during the campaign. Basing his dis-
course upon the story of Malachi, Dr.
Ham delivered an eloquent discourse
in which he set forth the shortcom-
ings of modern Christendom in bold
relief and which closed with an ear-
nest and heart searching appeal to the
professing Christians to set them-
selves right with God.

Following the most effective song
service of the campaign Dr. Goodwin,
of the Westminster Presbyterian
church, and Dr. Davidson, of the First
Baptist church, took occasion to urge
a full attendance upon the morning
services, stressing the fact that Dr.
Ham's morning discourses were the
most helpful and inspiring he deliv-
ers. Just prior to the sermon, Dr. Ham
sang an effective and appealing solo.
Following the service the evangelist
met with the young men of the au-
dience and introduced to them John
C. Cowell, Jr., of Fayetteville, N. C.,
who is to conduct a series of special
services with the young men begin-
ning tonight at 7:15 o'clock at the tab-
ernacle.

After reading an excerpt from the
book of Malachi, Dr. Ham introduced
his message with a brief survey of
the historical setting and he said in
part:

In her later days Israel developed
a state of formalism utterly devoid of
spirituality, and this state continued
down to the advent of the Savior, and
was exemplified in His day by the
Scribes and Pharisees upon whom he
continually heaped withering denun-
ciation.

And if the analysis of the seven
churches of Asia as set forth in the
first three or four chapters of Reve-
lations is a prophecy of or a prophetic
setting forth of the seven ages of the
Christian church as I verily believe,
then we are living in the last, or sev-
enth age, of Christianity, represented
by the Laodcean church, the only one
of the seven about which God hadn't
one of the good thing to say. Any time

COMMISSION HOLDS ITS SECOND SESSION

Weekly Meetings Will
Be Held Thursday
Evenings

ASSIGNMENTS ARE GIVEN MEMBERS

Britain The Chairman
Pro-tem By The
Board's Decision

The three commissioners of the city
of Decatur, Jas. A. Nelson, W. A.
Britain, and Chas. E. Sittason, met
for the second time since taking of-
fice, at the city hall at the corner of
Vine and Railroad streets, Thursday
evening at 7:30 o'clock. At its first
meeting held Tuesday afternoon at the
city hall on Johnston street, it was
agreed that for the time being the
weekly meetings of the commission
shall be held at the city hall on Vine
and Railroad streets. Thursday even-
ings at 7:30 o'clock was the time set
for the regular weekly meetings.

The commission was called to order
last night by Chairman Nelson and
the minutes of the previous meeting
were read and approved. William A.
Britain was elected chairman pro tem.

The minutes of the last meeting of
the commission showed T. A. Bowles,
a notary public, had sworn in all the
recently elected officials and employees
of the city at the Central National
bank. The following resolution was
adopted by the commissioners Thurs-
day night:

"Be it resolved by the commission
of the city of Decatur, that the fol-
lowing assignments be made for the
commissioners: James A. Nelson, is
hereby designated President of the
commission in charge of the depart-
ment of finance, accounts, water and
light; second that William A. Brit-
ain is designated commissioner of
streets, parks and public works includ-
ing school buildings and grounds with
supervision of street work and fire
department; third Charles E. Sittas-
on is designated commissioner of pub-
lic safety and public health.

Each commissioner shall have con-
trol and direction of the city employes
in this department and also provide
all necessary material for his depart-
ment.

All new equipment and service con-
tracts by the city shall first be au-
thorized by the commission as a body
and while in session.

SCHOOL BOARD TO TAKE OFFICE SOON

On Saturday the board of educa-
tion for the city of Decatur as named
in the apterson merger bills, which
have recently passed both houses of
the state legislature and been signed
by the Governor, will be sworn in
and hold its first meeting, it was an-
nounced this morning.

The board of education was not
sworn in at the time the three city
commissioners took office, owing to
the fact that Hon. John Patterson,
was not expected in the city from
Montgomery until late Friday night or
Saturday morning, it was stated this
morning.

School officials who have been in
consultation with members of the in-
coming board of education are known
to be with holding announcements
concerning the opening of the city
schools until after the proposed meet-
ing of the new board of education
on Saturday.

It is the opinion all along that the
city schools and open about Septem-
ber 15.

FASCISTI RAID THE GREEK CONSULATE

Emblem Of Nation Torn
Away By Angry
Italian Crowd

(Associated Press.)
LONDON, Aug. 31.—The
Greek government has appealed
to the League of Nations to act
in the Greek-Italian controversy,
says an Exchange Telegraph
dispatch from Athens this after-
noon.

ROME, August 31—Two hostile
demonstrations were carried out to-
day by fascists, says the Corriere de
l'Italano, in front of the Greek con-
sulate. The Italian demonstrators car-
rying away the shield bearing the
Greek arms.

ROME, August 31—The Italian
cabinet, at a meeting today, formally
Greek reply to its ultimatum to be
unacceptable, the Stefaneschi says.

PARIS, August 31—Angry re-
sponses today in French official circles
over the differences between Italy
and Greece. The Greek re-
sponse to the Italian ultimatum is
from satisfying Italian demands, but
there is a question how far
can accept it without losing face.

ROME, August 31—The Italian
government today had before it a
reply to Premier Mussolini's ultimatum,
embodying seven demands for
reparation and indemnity for the mas-
sacre of the Italian officers at the
Greece-Albanian boundary.

The reply declares that the Greek
government considers as unjust the
attribution to it by Italy for responsi-
bility for the assassination and says
that it finds it impossible to accept
the fourth, fifth and sixth demands in
the ultimatum, considering them
violations of the honor and sovereignty
of the Greek state.

These demands were that the Greek
authorities institute a thorough in-
quiry into the massacre on the basis
of the slaying, assisted by the Italian
military attaché at Athens, that all
the guilty be executed and that an
indemnity of 50,000,000 Italian lire,
approximately \$2,160,000, to be paid
within five days of the presentation
of the note.

The Greek reply promises a formal
apology for the incident, but in a
modified form from that laid down
in the Italian ultimatum and also
agrees to the celebration of a religious
function in memory of the victims.

It offers "just indemnity" to the
families of the slain commissioners
and concludes with the hope that Italy
will acknowledge Greece's conciliatory
spirit and her desire to give satisfac-
tion.

BRANDON DECLARES BIG DEFICIT IS FACED

(Associated Press.)

MONTGOMERY, Ala., August 31—
Without increasing appropriation for
any state activity, Alabama will face
an annual deficit of \$1,500,107, pro-
vided it pays the accrued indebted-
ness, Governor W. W. Brandon this
afternoon told a joint session of the
Alabama legislature.

Governor Brandon urged the legis-
lature to pass the four mill education
tax.

Governor Brandon said that he re-
gretted that the financial condition
of the state was such that he could
not recommend any increased approp-
riation until the additional revenue
was in sight. He said the submission
of the four mill educational tax and
ratification by the voters will remove
all difficulties and will open the
revenue by which the state may advance
to greater activities.

A NEW NATIONAL HIGHWAY PLAN.

The National Highway Association, of which
General DuPont is chairman, proposes a plan to
build national roadways so that people out south
and west will have to pay only half price for their
roads. Stated briefly, the plan is for a national
highway commission to build 150,000 miles of
roads, to cost six billions of dollars, and to take
20 years to do the job—\$300,000,000 a year, or \$3
each per year for the 100,000,000 people in the
United States.

It is pointed out that as some nine or ten states
at the northeast are so thickly populated that that
group of states would have to pay for most of the
roads in southwest and that close to forty states
would re roads at half price. The association
report that the south, middle west and the west
can "gain national highways at half their cost and
maintenance forever" by having senators and
congressmen from those sections vote at Wash-
ington for the proposed plan.

It all looks very pretty and it may be all right.
People out east who have to come over the high-
ways in the far west and south might be willing to
pay for the far away roads and then again they
might not. If the New Englanders did not want
to put up that extra road money, it would not look
right to force them to do so just because the south
and west have larger representation in the na-
tional congress.

COURTESY IS IN THE DICTIONARY AND SHOULD BE EVERYWHERE ELSE.

Despite the inexperience of courtesy it is not a
universal possession. But courtesy is felt and
practiced much more universally now than at any
time for many years past. This is the universal
opinion of the traveling public today, especially
that part of the public that patronizes the L. & N.
system, "The Old Reliable." The courtesy of the
employees of this road is noticeable and gratifying;
but especially is courtesy the rule and practice in
the offices of the officials of this company.

In the offices of some of the managers of the
L. & N. railroad appears the motto: "Courtesy
is in the dictionary and it is in this office."

What gentle treatment is to the sick, courtesy is
to the tired and weary but busy people along the
roadway of life.

It was just as unreasonable and heartless for a
surgeon to treat his prospective patient with
roughness and unconcern as for the managers and
operatives of a great transportation system to
treat the traveling public with indifference and
unconcern.

Many people are on journeys not of their own
choosing, but because some circumstances over
which they have no control has forced them to
make trips to different parts of the country. Many
of the travelers on railroads are in such conditon,
whether sick or well by the time they have trav-
eled a hundred miles to appreciate kindness and
courtesy; and on the other hand many travelers
nerves are in such condition they are prepared to
resent the least hint of discourtesy.

Courtesy should be the stock in trade of every
person who deals with the public, but especially
should those exercise a kindly care and genuine
cortesy who deal with a tired and fretful public.

Women
to attract must
Radiate
Health!

BEAUTY is the magnet which
draws all eyes—and back of
beauty—Health—working silently.
Red blood tingling through the veins;
—the glow of youth in the cheeks;
—the spring of eagerness, of vim, of
vitality in the walk;—the ever grace-
ful, unrestrained by care or worry.
—All the charms of beauty. All the
works of health.
Men are fascinated by the charms
of beauty. Women gaze with envy,
secretly jealous, perhaps—wondering
—hoping—praying for that attrac-
tiveness that is not theirs.
But why the wondering—the hop-
ing—the praying for that craved-for
attractiveness—that beauty. Good
looks is the barometer of one's con-
dition. Good health radiates beauty.
S. S. S. purifies the blood—creates
new red blood cells—rids the system
of impurities which make beauty and
attractiveness impossible. As women
to attract must radiate health so must
they keep their systems free from im-
purities and their red blood cells ever
increasing. S. S. S. does both.
S. S. S. since 1896, has been rid-
ding the system of impurities—pim-
ples, blackheads, boils, eczema and
rheumatism—building red blood cells
—aiding women to be attractive by
radiating health. S. S. S. is made of
carefully selected herbs and barks,
scientifically prepared and propor-
tioned. All good drug stores carry
S. S. S. It is more econom-
ical to purchase the large size
bottle.

Hear's Evangelist

(Continued From Page 1.)

You want to find out how our aver-
age church looks to God's eyes you
have only to turn to the third chap-
ter of Revelations and read what He
thought of the Lookeeian church, and
you can see that the church in Malachi's
time didn't have much on us.

Once is a day of imitations. We can
make honey that never saw a bee,
butter that never knew a cow. And
we have a Christianity not acquainted
with Christ. It is perfectly orthodox.
He not only believes in the divinity
of Christ, he knows it.

His present method of opposition is
by imitation. Theosophy, Eddyism and
Russellism, and the Laodicean type of
religion found in our churches every-
where.

The Seven Fold Indictment

1. Calling God Father and Master,
without giving Him the reverence due
a father of the service due a master.
The evangelist made telling applica-
tion of that charge to many church
members in this day.

2. Polluting God's altar by offering
blind, sick and lame sacrifices on it.
The preacher describing the old clothes
often sent to orphanages or contrib-
uted to the poor, with buttons first
cut off and laces removed from the
shoes, etc. How many give God only
such time or such other offerings as
they have no use for!

3. "Render service only for reward
and not for love. Take away the re-
ward of heaven and the fear of hell,
and how many would serve God at
all?

4. That they found His service a
weariness. Church members can sit
in a show three hours and never tire,
but thirty minutes as long as they
can stand it in a church. The reason
is, they are not sheep, but goats. They
are not spiritual but carnal.

5. God hates pomp and ritual and
lip services. He despises to hear your
orthodox phrases coming from a her-
erodox heart. No wonder God turns
against us when an emperor attends
church in the morning and leads hosts
to the battle in the afternoon.

"God is tired of all this hypocrisy.
Away from me, He cries. Many of you
are serving Me only for what you can
get out of it.

"How many of you would serve God
if you were to get nothing out of it?
You care for nothing save to keep
your own little miserly soul out of
hell. But don't get the idea you are
saved just because your name is on
the church roll. You may wake up in
hell and be mightily disappointed.

As long as you church members
refuse to abide by or pay attention
to our church laws, what business
have you criticizing the city council
or the state officials for not enforce-
ing the laws?

Yet there never was a time when
it was easier for a man to understand

Voice of People

The Albany-Decatur Daily,
Decatur, Alabama.
Gentlemen:

I was profoundly interested in yes-
terday's news announcing the birth of
another city, the eighth largest in the
State. Decatur is now on the map.
Congratulations, and with them, four-
teen times the admiration I enter-
tained for her fourteen years ago.
May the spirit of the new city be-
reft of old jealousies, become bold and
aggressive enough to lead among the
competitive municipalities of the
country.

A sincere friend and former citi-
zen,
K. E. COOPER

Wanted More Time for Slumber.

The family was discussing the ap-
proach of the day they most enjoyed. Sonny
was asked his favorite time and the
child answered in this indirect way.
"Well, I don't like the mornings, cause
they come too early."

God's purpose. There never were so
many helps to the study of the Bible.
So that ignorance will not be forgiv-
en you.

Damage From Worm Past States Green
S. H. Green, a brother of J. H. Green, the popular probate clerk, was here today and with his family, will attend the Ham-Ramsay revival meeting this evening.
Mr. Green stated that he had recently travelled in Jefferson, Blount, Walker and Cullman counties, and that from what he could see and learn, the leaf worm is of the past, except that he may make a second invasion. Mr. Green stated that while the boll weevil was doing considerable damage that he considered there was as good chances for a large cotton crop in the counties he had visited as during past years at this time.
Mr. Green stated that the corn crops were especially good.
Hendrix In North To Return Negro
At the request of Sheriff Poole, Nawi Hendrix, formerly a local policeman, is journeying to Chicago in quest of William Kimball, the negro who is wanted by authorities here in connection with the killing of Roy Stephenson, a negro, about two months ago.
Immediately after the fatal shooting of Stephenson, Kimball fled, and was not heard of until a few days ago. Police authorities at Chicago believe they have Kimball and have asked Sheriff Poole to send a man for him.
Leaf Worm Fails On Second Visit
The leaf worm has not yet made his expected second attack on the surrounding cotton crops, so far as he could see, stated E. H. Peck, prominent business man and farmer this morning. "But the boll weevil is working havoc" stated Mr. Peck.
Mr. Peck said he had it as his belief that the boll weevil and not the leaf worm is the greatest present enemy to the cotton crop.
A VALUED ASSISTANT LEAVES
It is with much regret that we announce the departure of Mrs. J. R. Mainard, who has been connected with this office since the second week of our management. She ran over from Albany, as she put it "to help us out for a couple of weeks," and stayed seven months. The interests of this paper and its readers were always paramount to her own desires and we cannot pay too high tribute to her unselfish labors for the success of this paper.
She leaves to take a position in Birmingham where we are sure she will find success. She is a capable and efficient printer and a most estimable lady. She carries with her the best wishes of the entire office force and we are sure those of our readers as well.—Lawrence County Times.

GLOBE DOESN'T TURN, IT JUST SHIMMIES, SCIENTIST AVERS
LONDON—This old globe of ours is not rotating as a rigid body in the heavens, but it is behaving as if it were a jelly-like substance, and some parts of its surface are moving relatively to other parts. This startling suggestion is put forward by Prof. W. de Sitter of the University of Leyden, in Nature. According to the Professor it would follow that the distance between various points on its surface is shifting slightly. Wireless time-signals exchanged between various observatories have shown discrepancies, reaching on occasions several tenths of a second.
Similar fluctuations in recent years have been observed on the surface of the moon; in fact, something queer is happening in the solar system, because even the sun seems to have been infected by the new astronomical complaint.

CHICAGO TO TEACH FUNDAMENTALS OF SAFETY IN SCHOOLS

CHICAGO.—Systematic class room work in safety education for every child in the public schools is Chicago's plan in the nationwide campaign to check the mounting toll of accidental death and injury.

A plan for schooling in accident prevention, safety methods, and first aid activities drawn by a committee appointed by Superintendent of Schools Peter A. Mortenson will be put into practice in the elementary schools at the opening of the Fall term.

Safety education through slogans and jingles; class room games, themes dramatization and debates is a part of the plan. In addition, an effort will be made to relate accident statistics with the students' work in arithmetic, grammar and geography.

"Experience in several cities has shown," Mr. Mortenson said, "that safety education in the schools has been the most effective agency in reducing the number of accidents to children."

The program approved for Chicago and believed to be more extensive than any in use elsewhere was arranged by principals in schools here, in cooperation with more than 50 agencies interested in the aims of the undertaking.

"It does not contemplate the addition of a school subject," Mr. Mortenson explained, "but rather the implication in several subjects of concerns for the safety of children."

Separate treatment of various classes of accidents in successive months is provided. September, October and November are given respectively to street dangers, fire, and weapons; the next three months to burns and scalds, poisons and asphyxiation, and electricity; and March to June, inclusive, to falls, railway accidents, carelessness in play, and drowning. The work under each monthly classification will be graded to meet the requirements of the various ages between the first and eighth grades.

"From sense training in the kindergarten to elaborate projects for study in the upper grades, there is opportunity, without serious detriment to other worthy subjects, to develop in the child attitudes and habits of thought and action that shall serve in the earlier stage to protect him from harm, and in the later stage, help him to protect others from harm," said Mr. Mortenson.

Rights Within Reason.

A man has no more right to say an unkind thing than to act one; no more right to say a rude thing to another than to knock him down.—Johnson.

Hartselle News

Three hundred and eighty five students were enrolled the first day at the opening of the grammar school. This number is expected to be increased largely during September.

Mrs. Mattie Sherrill visited her daughter, Mrs. Lottie Whitman at Gullman Wednesday.

Dr. John D. Sherrill and family of Birmingham are spending several days with his mother and other kindred here. Dr. Sherrill was raised here and soon after his entry into the practice of medicine, removed to Birmingham.

C. C. Doss attended the merchants convention at Birmingham Wednesday.

Miss Cleo Wiley is at Birmingham for several days stay.

Officials of the Morgan County Fair Association announce that intensive preparations will be carried through during the month of September in order to have everything ready for the opening week of October 1. Two worth while attractions have already been contracted for, they being the daily balloon ascension and parachute leap, and elaborate fireworks for each night. The officials are flooded by mail with attraction offers, and the selection of them is the only thing remaining to make the attractions complete.

Man Has Miraculous Escape

"I was told by our family physician that I could not live without an operation, as my liver and gall sack were in such a condition. I set the day to go to the hospital, but then I saw the advertisement of Mayr's Wonderful Remedy. Since taking it I am feeling like a two-year-old. I am sure I never could have survived an operation." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. By druggists everywhere. Adv.

I was a freeman, and I was in love with the little teacher. He was the finest looking man I had ever known. One day I stopped at his place with my brother, and such a reunion. Dad, brother, soiled collars and crisp shirts, sox were strewn all around the room. The sight quite over-brought me. I flew out of the window.—Schaver
